

Dear Parents,

Greetings from Asian Christian High School!

At ACHS we pray continually for the safety and wellbeing of all our parents and students, especially so during this pandemic. The impact of COVID-19 on the common people has been enormous as a result of lockdowns and the economic slump. We pray that God would help all of us to tide over this difficult situation soon.

The COVID situation is more alarming in some countries like India, the US and Brazil than in others. Some countries where there was a big decline in positive cases in the last few months are witnessing a resurgence of cases in recent times. The overall cases in the world have gone up to 2 crore plus along with the death toll rising to 7.5 lakh as of now.

Pharma companies of different countries are competing to be the first to come out with a vaccine to prevent the infection. And some of them have reportedly reached the third level of testing in humans. Let us pray earnestly that they will be successful soon in getting its final approval.

In India, 10 states have a large number of daily positive cases and Tamil Nadu is one of them. This makes all us to be more careful when we are out-in following social and physical distancing, using soap and sanitizers, and in wearing masks. We need to stay home to be safe and avoid venturing out if it is not an emergency.

We hope all our students are staying home and not going out.

ACHS Online Education

We have been in the forefront in bringing online education to our students during this pandemic fully adhering to all the government guidelines. As you know we have online work allotments/recorded video classes happening for KG classes for half an hour daily. For Std. 1 to 4 one period of daily online class, for Std. 5 two periods, for Std. 6 & 7 two periods of live lectures and for Std. 8 to 10 three & for 11 and 12 four periods of live lectures are conducted through various online platforms. Besides, online assessment, reading assignment, projects and assignments, quizzes, seminars, debates, physical education & art classes etc. are conducted periodically.

Teachers are trained routinely to equip them with new technologies. Workshops are conducted by leading higher education institutions for kids on career options/new trends in STEAM learning, help in the ongoing education of both teachers and students.

Hoping for this time to pass soon so that we can have our regular physical classes on the campus. May God bless you!

Sincerely

Asian Christian High School
